

# King's College London Maths School Summer Program Hong Kong Affililate Scheme. FAQ

## I am registering as an Affiliate for King's College London Maths School Summer Program via goaffpro is it reliable and trustworth for me to use this platform?

As of 2026, **GoAffPro** is considered a highly reliable and industry-standard platform for affiliate marketing. It is used by thousands of businesses globally—from small startups to large international brands—and is the top-rated affiliate app on major platforms like Shopify and WordPress.

For your specific goal of joining the **King's College London Maths School (KCLMS) Summer Program** as an affiliate, here is a breakdown of why you can trust the platform:

### 1. Reputation and Security

- **Highly Rated:** GoAffPro consistently maintains a **4.7 to 4.8-star rating** across professional review sites (G2, Shopify App Store). Affiliates praise it for its transparency and the clarity of its dashboard.
- **Data Protection:** The platform is GDPR compliant, which is essential for a program linked to a UK institution like King's College London. Your personal data and payment information are handled using industry-standard encryption.

### 2. Transparency for Affiliates

One of the main reasons affiliates trust GoAffPro is that you don't have to "guess" if you've made a sale.

- **Real-Time Tracking:** You can see clicks and "leads" (people who signed up for the members area you mentioned earlier) in real-time.
- **Clear Attribution:** The system clearly shows which sale came from which link or coupon code, so there is a digital paper trail for every commission you earn.

### 3. Professional Payout System

- **PayPal Integration:** As we discussed, GoAffPro integrates directly with PayPal. This means the merchant (KMS) can pay you securely without ever seeing your full bank details.

- **Automated Records:** Every time you are paid, GoAffPro generates a digital receipt for your records, making it easy for you to track your income for tax purposes.
- 

### Is the "KCLMS Summer Program" itself legit?

**Yes.** The KCLMS Hong Kong Summer Programme is a high-profile collaboration between **King's College London Mathematics School** and the **Beacon Group** in Hong Kong.

- KCLMS is famous for being one of the top-performing sixth-form colleges in the UK (with a 90%+ A\*–A rate in Maths).
- The fact that they are using a professional tool like GoAffPro actually adds to their credibility—it shows they have a structured, automated system in place to ensure their partners (you) are treated professionally and paid on time.

### One Small Caveat

While the **software** (GoAffPro) is 100% trustworthy, your actual payment always depends on the **merchant** (the program organizers).

**Recommendation:** Since you are promoting a prestigious program, keep a record of your approved "leads" and check your dashboard regularly. Because you are dealing with a reputable educational body, they have a "brand reputation" to protect, which makes them much more reliable than a random online store.

### Question : How does goaffpro actually track whether the potential customer in this case parent/student referred is under my Affililate umbrella?

For a high-ticket educational program like the **KMS Summer Program**, GoAffPro uses a "layered" tracking approach. It doesn't just rely on one method; it uses three specific digital safety nets to ensure that when a parent or student applies, you get the credit.

Here is how the "Umbrella" works in plain English:

#### 1. The 30-to-90 Day "Cookie" (The DigitalBreadcrumb)

When a parent clicks your link, GoAffPro drops a tiny file (a cookie) into their browser.

- **The Memory:** If the parent clicks your link today but doesn't apply until two weeks later, the system still "remembers" they came from you.

- **The Protection:** Even if they go directly to the website later without clicking your link again, the cookie is still active, keeping them under your umbrella.

## 2. "Customer-Affiliate Connect" (Email Matching)

This is the most powerful feature for your "Apply First, Pay Later" model.

- **The Link:** When the parent fills out the application form with their email address (e.g., parent@email.com), GoAffPro immediately "binds" that email to your affiliate ID.
- **The Permanent Bond:** Once that email is linked to you, it doesn't matter if they clear their cookies, change computers, or use their phone to pay a month later. As soon as that email address is used to checkout or pay for the summer program, GoAffPro sees the match and assigns the commission to you.

## 3. Personal Coupon Codes (Clickless Tracking)

You will likely be given a unique code (like KMS-YOURNAME).

- **The Override:** If a parent hears about the program from you but forgets to click your link and just goes straight to the site, they will still want to use your code to get a discount or special offer.
- **The Attribution:** The moment that code is entered at checkout, GoAffPro ignores all other tracking and gives **100% of the credit to you**. This is "bulletproof" tracking because it relies on the user's action rather than browser technology.

## 4. Direct Form Integration (Lead Tracking)

Since you asked about a "Members Area" and "Forms" earlier:

- GoAffPro is integrated directly into the **KMS Wix site**.
- When the parent submits the Wix form, GoAffPro "listens" for that submission. It captures the form data and instantly tags that new "Lead" to your dashboard. You will actually be able to see **"1 New Lead"** in your GoAffPro portal before they even pay.

### Summary of your "Umbrella"

If the parent...	Does it track?	How?
Clicks your link and buys 2 weeks later	<b>YES</b>	Browser Cookie
Clicks on a PC but buys on a Phone	<b>YES</b>	Email Matching (Connect)

If the parent...	Does it track?	How?
Forgets the link but uses your Code	<b>YES</b>	Coupon Code Tracking
Applies now but pays in June	<b>YES</b>	Lead-to-Sale Sync

**Transparency Tip:** You can log in to your GoAffPro dashboard at any time to see your "**Click-through Rate.**" If you see that 50 people have clicked but 0 have applied, you'll know your link is working, but perhaps your "pitch" to the parents needs to be more persuasive!

**Q : How get paid in goaffpro as an affiliate? What payment method is possible? Do I need to sign a contract as a affililate with the program?**

Getting paid through GoAffPro is a transparent process, but because GoAffPro is the **software** and not your **employer**, the specific "rules" of your payday are set by the KMS Summer Program organizers.

Here is exactly how the payout process works for you as an affiliate:

### 1. How You Get Paid

Once a sale is "Approved" (usually after the refund period you mentioned), the commission moves to your **Payable Balance**.

- **The Notification:** You will receive an email or a push notification (if you use the GoAffPro app) when a commission is credited to you.
- **The Payout:** The KMS admin will then trigger a payment. Depending on their settings, this might happen automatically on a specific date (e.g., the 1st of every month) or manually once you hit a "Minimum Payout" threshold (e.g., **£50** or **HK\$500**).

### 2. Supported Payment Methods

GoAffPro supports several ways for you to receive your money. You can set your preference in your **Affiliate Dashboard** under **Settings > Payment Settings**:

- **PayPal:** This is the most common and fastest method. You simply enter your PayPal email address.
- **Bank Transfer (ACH/Wire):** Some programs allow direct bank transfers if you provide your IBAN/Swift code.

- **Store Credit/Gift Cards:** In some cases, affiliates choose to be "paid" in course credits or gift cards, though cash via PayPal is standard for recruitment programs.
- **Venmo:** Popular if the program is US-based, though less common for HK/UK programs.

### 3. Do You Need to Sign a Contract?

This depends on the KMS Program's specific requirements, but here is the standard flow:

- **Digital Agreement (Standard):** When you signed up, there was likely a "Terms and Conditions" checkbox. By checking that, you legally agreed to their **Affiliate Agreement**. This acts as your contract.
- **Formal E-Signatures:** Because the KMS program is associated with high-profile institutions, they might use GoAffPro's "**Legal Document**" feature. If they do, they will email you a document (like a PDF) through the portal that you must e-sign before your first payout can be processed.
- **Independent Contractor Status:** Almost all affiliate "contracts" state that you are an **independent contractor**, not an employee. This means you are responsible for your own taxes on the commissions you earn.

---

### 3 Steps to Ensure You Get Paid:

1. **Complete Your Profile:** Log in to your GoAffPro portal and make sure your **Payment Email** is filled in. If this is blank, they can't pay you!
2. **Check the "Hold Period":** Look at the program terms to see how many days they hold commissions. Since you mentioned "after refund policies expire," expect a **30-to-60 day** wait from the moment of sale to the moment of payout.
3. **Tax Info:** Depending on the amount you earn, the program may eventually ask you to upload a simple tax form (like a W-8BEN for non-US residents) to comply with international payment laws.
